

Small Parts Storage Cabinets

Use in ISU Series Containers

Small Parts Cabinet, PN 86019-007 (10-drawer) shown in an ISU-90 Container.

ISU-90

P/N: 86019-007 ISU-90AA Cabinet Kit, 10 Drawer

P/N: 86019-008 ISU-90AB Cabinet Kit, 9 Drawer

P/N: 86019-009 ISU-90AC Cabinet Kit, 8 Drawer

P/N: 86019-010 ISU-90AD Cabinet Kit, 7 Drawer

P/N: 86019-011 ISU-90AE Cabinet Kit, 6 Drawer

P/N: 86019-012 ISU-90AF Cabinet Kit, 5 Drawer

ISU-60

P/N: 86019-013 ISU-60AG Cabinet Kit, 8 Drawer

Dimensions:

ISU-90 units: 45"W x 27-3/4"D x 59-1/8"H for the base unit with drawers and

45"W x 27-3/4"D x 20-3/4"H for the overhead storage cabinet for a total height of 79-7/8"

ISU-60 units: 45"W x 27-3/4"D x 44-3/16"H

The storage cabinets for the ISU-90 Series Containers provide modular drawer storage for easy access and maximum organization for bulk and/or small parts.

These cabinets are designed to reduce retrieval time – typical Container stuffing is eliminated, making parts easy to find. Adjustable drawers (3/4" intervals) and shelves offer interchangeability needed for Full or Partial Mission deployments.

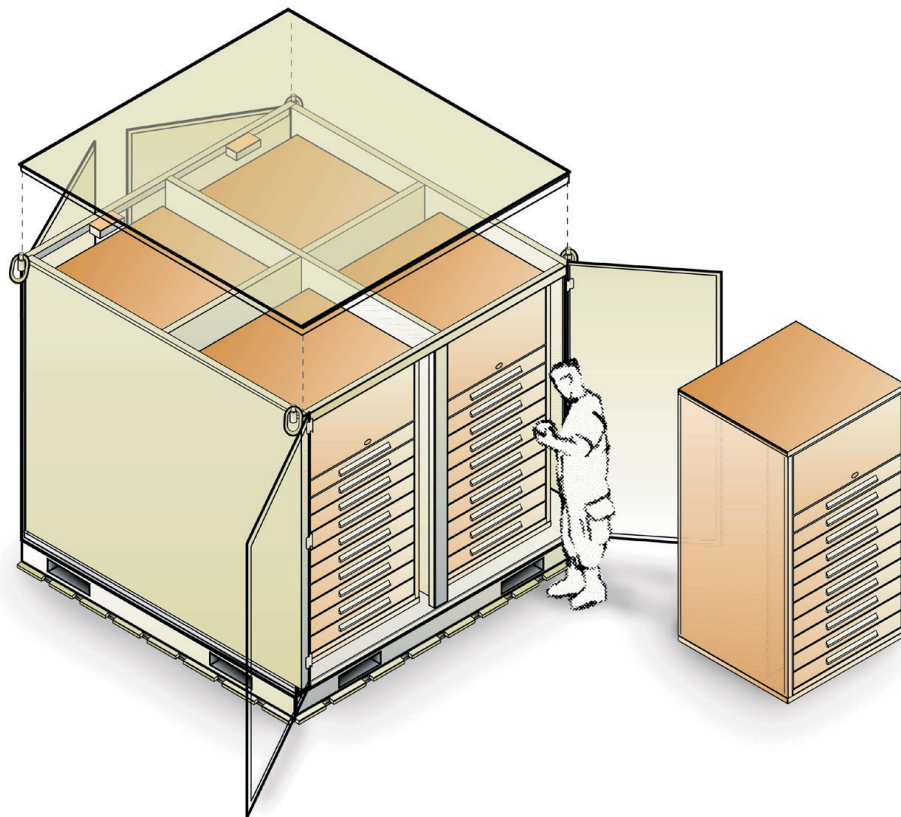

Cabinets protect inventory from dirt, dust and damage by enclosing items, protecting critical mission sensitive parts, keeping them clean and combat ready.

Perfect for turn-key and strategic full or partial mission deployments – the base cabinets include an integral pallet base, which is easy to lift and move with a forklift.

See page 4-14d for Quick Attachment Installation Kit information.

Small Parts Storage Cabinets

Use in ISU Series Containers

Cabinet Kit P/N 86019-007 (10-drawer) shown in an ISU-90.

Features:

- High density storage - condense and organize roughly 2 to 4 ISU's worth of shelved parts into 1 container
- Control Inventory - Every item within a cabinet has its own special storage location

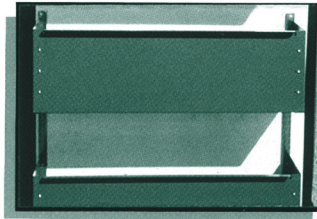

Small Parts Storage Cabinets

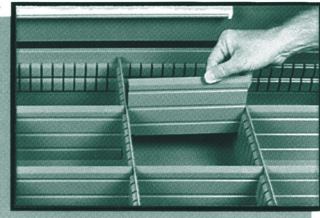

Modular drawer storage drawers extend fully so all parts are within full view and easy reach, for quick labeling and bar coding.

Overhead storage cabinets offer easy access to bulk parts.

Door bin kits are within easy reach, maximizing space and offering convenient storage locations for odd size parts.

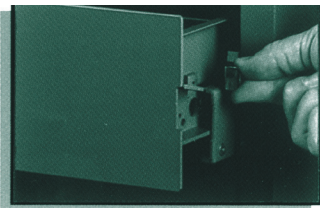

Adaptable and adjustable drawers, shelves & door bin kits offer the interchangeability needed for "full or partial mission deployments". Drawer positions and interiors are easily adjusted within 3/4" increments.

Reduce retrieval time. "Typical" Container stuffing is eliminated. Parts are easily found and are retrieved in less than half the time.

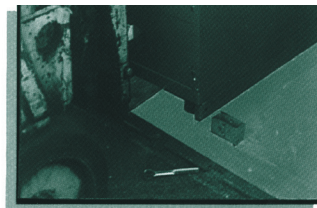

Protect inventory. Storage cabinets protect inventory from dirt, dust and damage because the items are enclosed. Valuable or critical mission sensitive parts are protected, remaining clean and combat ready.

MR (lock-in-lock-out latches) keep the drawers in a locked in or out position, protecting the parts even if the deployed container is set up at any angle

HLBL (hinge lock bars) are used for pre-staged cabinets. Military padlocks and seals may be used on each cabinet, dramatically shortening the readiness inventory analysis of cabinets.

Perfect for turn key and strategic full or partial mission deployments. Base cabinets include an integral pallet base, which is easy to lift and remove with a forklift.

Storage Cabinets Quick Attachment Installation Kit

For Installing Cabinets In The AAR ISU Series Containers.

Cabinet, PN 86019-009 (8-drawer)
shown in an ISU-90 Container.

P/N: 60205-001 Installed with kit

P/N: 60205-002 Customer/field installed
NSN: 8145-01-486-2462

Features:

- Custom designed and fabricated extrusions, rails and fasteners ensures that the storage system is secured properly for full or partial mission deployments.
- The storage cabinet quick attachment kit works with all available kits designed for the ISU-90 Series Containers.
