In accordance with Department of Defense (DoD) policy as stated in AR 70-59, OPNAVINST 3900.27, AFJ1 61-106, and MCO 3920.5A, the services through the Joint Committee on Tactical Shelters (JOCOTAS) has approved a Standard Family of Tactical Shelters.

The shelters contained in this brochure are the only shelters authorized for military use.

# Table of Contents

## Soft Wall Shelters 24-30

**AIR FORCE** 24
- Rapid Deployment Bare Base Shelter System (Dome Shelter) 24
- Small Shelter System 24
- Medium Shelter System 24

**ARMY** 25
- Tent, General Purpose, Small 25
- Tent, General Purpose, Medium 25
- Tent, General Purpose, Large 25
- Modular General Purpose Tent System (MGPTS) 26
- Lightweight Extreme Weather Shelter (LEWS), 3-Man 26
- Tent, Extendable, Modular, Personnel (TEMPER) 27
- Tent, Frame-Type, Expandable, 16 Ft × 16 Ft 27
- Modular Command Post System (MCPS) 27
- Tent, Arctic, 10-Man 28
- Tent, Hexagonal, Lightweight, M-1950 (5-Man Arctic) 28
- Tent, Frame-Type, Insulated, Sectional, 16 Ft × 16 Ft 28
- Soldier Crew Tent 29
- Tent, Shelter Half 29

**MARINE CORPS** 30
- Tent, Command Post, M-1945 30
- Extreme Cold Weather Shelter (ECWS), 4-Man 30
- 2-Man Combat Tent 30

## Special Purpose Shelters 31-32

**ARMY** 31
- Ammunition Solar Cover, General Purpose, Type I 31
- Ammunition Solar Cover, Type II 31
- Two Soldier, Small Unit Solar Shade (SUSS) — Experimental 32
- COLT Team Small Unit Solar Shade (SUSS) - Four Soldiers — Experimental 32

## Maintenance Shelters 33-34

**ARMY** 33
- Tent, Frame-Type, Maintenance Medium, Light Metal (Fritsche) 33
- Lightweight Maintenance Enclosure (LME) 33
- Large Area Maintenance Shelter 34

## Hybrid Shelters 35

**AIR FORCE** 35
- General Purpose Shelter (Bare Base) 35

**ARMY** 35
- Chemically and Biologically Protected Shelter (CBPS) 35

## JOCOTAS Charter 36-38

## JOCOTAS Officers & Principal Voting Members 39
This brochure contains information on the Department of Defense (DoD) Standard Family of Tactical Shelters. The standard rigid wall, soft wall, and hybrid shelters shown in this brochure have been approved by the Joint Committee on Tactical Shelters (JOCOTAS) for Department of Defense (DoD) use.

JOCOTAS was formed in 1975 under Office of the Secretary of Defense (OSD) direction with the purpose to:

- Prevent the duplication of Tactical Shelter Research and Development.
- Eliminate the proliferation of non-standard tactical shelters in the DoD inventory.
- Maximize the usage of DoD Standard Family of Tactical Shelters.

Prior to the formation of JOCOTAS, 100+ rigid wall tactical shelter types existed among the Four Services which created a huge logistics burden for shelters. JOCOTAS has succeeded in reducing the standard family of rigid wall tactical shelters to 17 shelter types among the Four Services. Soft wall and hybrid shelters were added to JOCOTAS in 1995. JOCOTAS consists of two technical working groups (TWGs), Rigid Wall/Hybrid TWG and Soft Wall TWG, that meet twice per year and principal/voting Service members that meet annually. Office of the Under Secretary of Defense (Acquisition & Technology), OUSD (A&T), has approval authority for JOCOTAS. Additional detailed JOCOTAS information is delineated in the 19 April 2000 OUSD-approved new JOCOTAS Charter that is shown on pages 36-38. JOCOTAS officers and principal voting members are listed on page 39.

Shelters developed by the Army, Air Force, Navy and Marine Corps are usable by more than one Service and make up the JOCOTAS approved DoD Standard Family of Tactical Shelters. The standard shelters contained in this brochure can be used by all Services. New requirements and technology advancements will likely result in additional shelters being added by JOCOTAS to the existing Standard Family of Tactical Shelters Listing.
**General Information**

**Tactical Shelter** - A highly mobile, transportable structure designed for a functional requirement that provides a live-in and/or work-in capability. These structures can be:

a) **Rigid Wall shelters** which are presized structures (non-expandable and expandable shelters) that are transportable by land, sea, or air. These shelters require minimal site preparation and no specialized set-up.

b) **Soft wall shelters** which include air supported and prefabricated structures, that are transported and then erected or assembled on site.

c) **Hybrid shelters** which are a combination of rigid and soft wall shelters that are transported and erected or assembled on site.

Structures not considered tactical shelters and outside the scope of the DoD Standard Family of Tactical Shelters are:

a) Containers used exclusively for cargo transportation (e.g., milvans, conex containers).

b) Refrigerated structures.

c) Modular or prefabricated structures designed to be shipped to the operating location and assembled with external unit support.

d) Vans.

**Joint Committee on Tactical Shelters (JOCOTAS)** - A committee consisting of representatives from Army, Air Force, Navy, and Marine Corps that:

- Eliminates duplication of research and development by annual submission and DoD approval of a 5-year DoD Tactical Shelter Research and Development program.

- Encourages maximum use of the DOD standard family of shelters.

- Provides a forum for technical interchange via Joint Working Group Meetings.

**Tactical Shelter Family** Means:

- Maximum Standardization for DoD shelters and continue to meet the needs of the Services.

- Rapid Worldwide Deployment of a tactical force featuring ISO (International Organization for Standardization) handling, structural and dimensional standards, where applicable, for container vessel shipment.

- Lower Long Term Deployment Costs by recovering deployed structures for future uses, eliminating wasted dollars on permanent construction which is later abandoned.

- Rugged Qualified Shelters that stand up to rough use in the field and climates all over the world.
This list has been approved by the Joint Committee on Tactical Shelters (JOCOTAS). Based on the recommendations of the JOCOTAS group, this list may have future additions or deletions.

Transportability and deployment are two main advantages of using DoD Standard Family Shelters. DoD Standard Family Shelters can be transported by land, air, or sea and deployed quickly.

Standard shelters are transportable using military/commercial trucks, railcars, container ships, dolly sets/mobilizers, helicopters, and military cargo aircraft.

Standard shelters are rapidly and easily erectable on site with no specialized equipment/tools and minimal, if any, site preparation.
Shelter Transportability

M1022A1 ISO Shelter Dolly Set

Palletized Load System (PLS) Truck

5-Ton Truck

Cargo Aircraft

Helicopter

Truck - Flatbed Trailer
A wide variety of complexing arrangements can be made using standard shelters. Joining corridors/passageways/bootwalls are available to connect basic shelters units to other basic shelter units and tents.
Shelter System Configurations

Some of the system configurations that are possible using standard shelters include command posts, field hospitals, dental facilities, supply depots, maintenance support facilities, food services field feeding systems, administrative/billeting quarters, and logistic support. Shelters can also double as shipping containers for equipment and/or systems used within. Below are some typical system configurations using standard shelters:

- Battalion Aid Station
- Hospital Operating Room
- Corps Command Post
- Modular Print System
- Maintenance Shop Set
- Field Kitchen
- Hospital Operating Room
Non-Expandable Rigid Wall Shelters

**S-250/G, Shelter, Electrical Equipment**

- **Description**: Mobile tactical shelter designed for housing communications and electronics equipment.
- **NSNs**: Unshielded NSN 5411-00-999-4935, EMI Shielded NSN 5411-01-489-6076.
- **Dimensions**: Exterior 7'-3"L x 6'-7"W x 5'-10"H, Interior 6'-8"L x 6'-3"W x 5'-4"H
- **Weight**: 770 lbs.
- **Payload**: 2530 lbs.
- **Construction**: Foam & Beam
- **Prime Mover**: HMMWV, M1028 CUCV
- **EMI Modification Kit**: NSN 9999-00-880-2188
- **EMI Protection**: 60 dB
- **HMMWV Mounting Kit**: NSN 5340-01-455-8700
- **Includes Cable Lift & Tie Down Assembly**
- **LIN**: S01427

**S-280C/G, Shelter, Electrical Equipment**

- **Description**: Mobile tactical shelter designed for housing communications & electronics equipment.
- **NSNs**: Unshielded NSN 5411-01-092-0892, EMI Shielded NSN 5411-01-304-3069.
- **Dimensions**: Interior 11'-6"L x 6'-10"W x 6'-5"H, Exterior (Envelope) 12'-3"L x 7'-3"W x 7'-3"H, Exterior (Skin to Skin) 11'-10"L x 7'-3"W x 6'-10"H
- **Weight**: 1400 lbs.
- **Payload**: 7100 lbs.
- **Construction**: Foam & Beam
- **Prime Mover**: 5 Ton Truck
- **EMI Modification Kit**: NSN 5410-00-937-5248
- **EMI Protection**: 60 dB
- **Includes Cable Lift & Tie Down Assembly**
- **LIN**: S01495
Non-Expandable Rigid Wall Shelters

ARMY

S-788/G, Shelter, Electrical Equipment, Lightweight

- **Description:** Replacement for S-250/G shelter designed for housing C4I battlefield systems.
- **Dimensions:** Interior 8'-3.5"L × 6'-9.5"W × 5'-4.5"H, Exterior 8'-6"L × 7"W × 5'-7"H
- **S-788/G Versions:**
  - Type I - Basic Shelter, Empty: NSN 5411-01-357-3582
  - Type III - Basic Shelter w/Tunnel Only: NSN 5411-01-357-3563
- **Weight:** Type I - 608 lbs., Type III - 643 lbs.
- **Payload:** 3300 lbs.
- **Construction:** Honeycomb Core
- **Prime Mover:** M1097/M1113 HMMWVs
- **EMI Protection:** 60 dB
- **LIN:** S01563

S-832/G, Shelter, Non-Expandable, Rigid Wall, Integrated

- **Description:** Standardized Integrated Command Post System Rigid Wall Shelter (SICPS RWS) is a transportable HMMWV mounted shelter integrated with on-board power, environmental control unit (ECU), EMI and CB protection, equipment racks, and power/signal wiring.
- **NSN:** 5411-01-436-3326.
- **Dimensions:** Interior 8'-3.5"L × 6'-9.5"W × 5'-4.5"H, Exterior 8'-6"L × 7"W × 5'-7"H
- **Construction:** Honeycomb Core
- **Prime Mover:** M1097/M1113 HMMWVs
- **EMI Protection:** 60 dB
- **LIN:** Z77196

ISO Shelter, Tactical, Nonexpandable

- **Description:** Non-Expandable 20 Ft ISO Shelter.
- **Dimensions:** Interior 19'-1"L x 7'-7"W x 7'-1"H, Exterior 19'-11"L x 8"W x 8"H
- **Non-Expandable ISO Versions:**
  1) S-781/G - 60 Amp Service: NSN 5411-01-136-9837
  2) S-782/G - 100 Amp Service: NSN 5411-01-294-6390
- **Weight:** 3900 lbs.
- **Payload:** 11,100 lbs.
- **Gross Weight:** 15,000 lbs.
- **Construction:** Honeycomb Core
- **LIN:** S00860
- **Includes Lights, Power Entrance Panel, Circuit Breaker Panel, Duplex Receptacles, Leveling Jacks
- **Single Personnel Door on One End**
**Non-Expandable Rigid Wall Shelters**

**MARINE CORPS**

### ISO, 10 Foot

- **Description:** Non-Expandable 10 Ft. ISO Shelter
- **NSNs:**
  - General Purpose - 5411-01-287-4341,
  - EMI Shielded - 5411-01-206-6079
- **Dimensions:**
  - Interior 9'L × 7'-6"W × 7'-2"H,
  - Exterior 9'-11"L × 8'W × 8'H
- **Weight:**
  - General Purpose - 2670 lbs.,
  - EMI Shielded - 2705 lbs.
- **Payload:** 3500 lbs.
- **Gross Weight:**
  - General Purpose - 6170 lbs.,
  - EMI Shielded - 6205 lbs.
- **Construction:** Honeycomb Core
- **EMI Protection:** 60 dB
- Removable Side and End Walls for GP ISO Only

### ISO, 20 Foot

- **Description:** Non-Expandable 20 Ft. ISO Shelter
- **NSNs:**
  - General Purpose - 5411-01-209-3451,
  - EMI Shielded - 5411-01-206-6078
- **Dimensions:**
  - Interior 19'L × 7'-6"W × 7'-2"H,
  - Exterior 19'-11"L × 8'W × 8'H
- **Weight:**
  - General Purpose - 3750 lbs.,
  - EMI Shielded - 4650 lbs.
- **Payload:**
  - General Purpose - 11,250 lbs.,
  - EMI Shielded - 10,350 lbs.
- **Gross Weight:**
  - General Purpose - 15,000 lbs.,
  - EMI Shielded - 15,000 lbs.
- **Construction:** Honeycomb Core
- **EMI Protection:** 60 dB
- Removable Side and End Walls for GP ISO Only
NAVY

Family of NAVAIR Mobile Facility (MF) ISO Shelters

- **Description**: Non-Expandable 20 Ft ISO Shelter
- **Dimensions**: Interior 19’-1/4”L × 7’-6”W × 7’-1/2”H, Exterior 19’-11”L × 8’W × 8’H
- **Weight**: 5235 lbs
- **Payload**: 14,765 lbs.
- **Gross Weight**: 20,000 lbs.
- **Service Life**: 20 Years
- **Construction**: Foam & Beam
- **Exterior Color**: Glossy White Polyurethane
- Can Easily Be Integrated with Environmental Control Units and Mission Equipment

**Basic Mobile Facility Type A**

- **NSN**: 5411-01-355-4322
- Can Be Complexed from Both Ends.
- **Doors**: 4’W × 6’-4”H (Both Ends of MF)
- Wired for 60HZ, 100 Amp Power. Power Can Be Transferred to Another MF.
- Capable of Transferring 400 HZ Power.
- Heating/Cooling Provided by 36,000 BTUH ECU Integrally Mounted Through Side of MF.
- Emergency Lighting Capability.

**Basic Mobile Facility Type B**

- **NSN**: 5411-01-355-4323
- Similar to Basic MF Type A Except Wired for Both 60HZ and 400 HZ Power.
**NAVY**

**Side Opening MF Type A**

- **NSN:** 5411-01-355-4320
- Similar to Basic MF Type B with Following Exceptions:
  - Provisions for Installation of Two 36K BTUH or 60K BTUH ECUs on One Side.
  - Other Side Removable to Allow Complexing With Side Opening MF Type B, Side Opening MF Type C, or Side Opening MF Type B (Modified).
  - Can be Complexed at End Doors.

**Side Opening MF Unit A (Navy)**

**Side Opening MF Type B**

- **NSN:** 5411-01-355-4321
- Similar to Side Opening MF Type A with Following Exceptions:
  - No End Doors
  - Can Only Be Complexed With Another Side Opening MF
  - Access Before Complexing Provided Through a Non-Standard Personnel Door (32"W x 66"H)
  - Designed to House Automatic Test Equipment
  - Provisions for 200 Amp Input Capability

**Side Opening MF Unit B (Navy)**

**Side Opening MF Type B (Modified)**

- **NSN:** 5411-01-355-4319
- Similar to Side Opening MF Type B Except It Has 80-Inch Wide Double Doors at One End to Allow Induction of Large Items for Repair.

**Side Opening MF Unit B (Navy) with Modified 80" Door**
Non-Expandable Rigid Wall Shelters

**NAVY**

**Side Opening MF Type C**

- **NSN:** 5411-01-355-6566
- Both Sides Removable; Can Be Complexed with Side Opening MFs. Increase Workspace.
- No Installed Equipment or ECU Provisions.
- Access Before Complexing Provided by a Normal Sized End Door

**Integration Unit (INU) MF**

- **NSN:** 5411-01-355-4318
- Used as a Junction for Up To Six Additional MFs; Two on One Side and Four on Other Side
- End Doors Complexible to Other INUs
- Receives 200 Amp, 60 HZ and 100 Amp, 400 HZ Power for Distribution to Attached MFs
- Heating/Cooling Provided By 10K BTUH Window Type Heat Pump Mounted to Side Wall
**Expandable Rigid Wall Shelters**

**AIR FORCE**

*Expandable, S-530 A/G*

- **Description:** Expandable Shelter (Two Shelters Expands to Volume of Three Shelters - 3:2)
- **NSN:** 5411-01-280-2909EJ
- **Dimensions:**
  - Interior (Non-Expanded) 11'-5"L × 6'-7"W × 6'-9"H,
  - Interior (Expanded) 11'-5"L × 20'-4"W × 6'-9"H,
  - Exterior 12'-2"L × 7'-3"W × 7'-6"H
- **Weight:** 2000 lbs.
- **Payload:** 4500 lbs.
- **Gross Weight:** 6500 lbs.
- **Construction:** Nomex Honeycomb Core
- **Erection:** Six Soldiers - 45 Minutes
- **EMI Protection:** 60 dB

**ARMY - AIR FORCE**

*Modular Extendable Rigid Wall Shelter (MERWS)*

- **Description:** Expansion Kit for Army Standard Expandable ISO Shelter.
- **NSN:** 5411-01-312-9084
- **Entire MERWS Kit Packs Within ISO Shelter for Transport and Storage**
- **Weight:** MERWS Kit Only - 7500 lbs., Attached to 1-Side Exp ISO - 13,200 lbs., Attached to 2-Side Exp ISO - 14,700 lbs.
- **Unobstructed Floor Space:**
  - Attached to 1-Side Exp ISO - 1000 sq. ft.,
  - Attached to 2-Side Exp ISO - 1150 sq. ft.
- **Dimensions:**
  - Attached to 1-Side Exp ISO - 53'L × 20'W × 8'H,
  - Attached to 2-Side Exp ISO - 60'L × 20'W × 8'H
- **Erection:** Four Soldiers - Four Hours Using Repetitive Sequence (Includes Unpacking from ISO Shelter)
- **Construction:** Honeycomb Core with Aluminum Skins
- **Includes Lights, Breaker Panel, Personnel Door, ECU Interface, Leveling Jacks**
- **Removable Panels Allow Attachment of ECU Ducting and Complexing Passageways**
Expansible Rigid Wall Shelters

**ARMY**

**Shelter, Tactical, Expandable, One Side**

- **Description:** One Side Expandable ISO Shelter
- **Dimensions:** Exterior 19'-11"L × 8'W × 8'H, Interior (Transport Mode) 19'-1"L × 7"W × 7'-1"H, Interior (Expanded) 18'-4"L × 14'-6"W × 7'-1"H
- **One Side Expandable ISO Versions:**
  1) S-783/G - 60 Amp Service: NSN 5411-01-124-1377
  2) S-784/G - 100 Amp Service: NSN 5411-01-295-3433
- **Weight:** 5400 lbs.
- **Payload:** 9600 lbs.
- **Gross Weight:** 15,000 lbs.
- **Construction:** Honeycomb Core
- **Erection:** Four Soldiers - 20 Minutes
- **Removable Panels Allow Attachment of ECU Ducting and Complexing Passageways**
- **Includes Lights, Breaker Panel, Power Entrance Panel, Duplex Receptacles, Leveling Jacks**
- **LIN:** S01291

**Shelter, Tactical, Expandable, Two Side**

- **Description:** Two Side Expandable ISO Shelter
- **Dimensions:** Exterior 19'-11"L × 8’W × 8’H, Interior (Transport) 19'-1"L × 6’-5”W × 7’-1”H, Interior (Expanded) 18’-4”L × 21’-6”W × 7’-1”H
- **Two Side Expandable ISO Versions:**
  1) S-785/G - 60 Amp Service: NSN 5411-01-136-9838
  2) S-786/G - 100 Amp Service: NSN 5411-01-294-9866
- **Weight:** 6900 lbs.
- **Payload:** 8100 lbs.
- **Gross Weight:** 15,000 lbs.
- **Construction:** Honeycomb Core
- **Removable Panels Allow Attachment of ECU Ducting and Complexing Passageways**
- **Erection:** Four Soldiers - 30 Minutes
- **Includes Lights, Breaker Panel, Power Entrance Panel, Duplex Receptacles, Leveling Jacks**
- **LIN:** S01359
• **NSN:** 5411-01-206-6077
• **Stored/Stacked Dimensions:**
  19'-11"L × 8'W × 1'-9"H
• Four Knocked Down Shelters Can be Stacked and Shipped in Transport Mode (8' × 8' × 19'-11"L)
• **Erection:** 20 Soldiers - 20 Minutes
• Conforms to ISO Container Standards
• **Erected Dimensions:**
  Interior 19'-11"L × 7'-5"W × 7'-1"H, Floor to Beam 6'-2"H
• **Weight:** 3650 lbs.
• **Floor Load:** 45 lbs./sq. ft.
**Rapid Deployment Bare Base Shelter System (Dome Shelter)**

- **Type of Shelter:** Frame Supported
- **NSN:** 5410-01-363-0090
- **Purpose/Use:** Primary - Warehouses/Storage, Secondary - Aircraft Hangars, Maintenance
- **Environment:** Desert, Temperate, Tropical, and Arctic Conditions
- **Dimensions:** 120'L × 65'W × 10'H to 24'H (Eave to Peak) - Basic 4000 sq. ft.
- **Floor Area:** 4000 to 8000 sq. ft. (Length Can Be Extended Using 14 Ft Modules)
- **Weight:** Shelter Only (4000 sq. ft.) - 28,660 lbs., Shelter w/ Container - 33,070 lbs.
- **Cube:** 1500 cu. ft. (4000 sq. ft.)
- **Erection:** Eight People - 32 Hours (No Special Tools)
- **Dismantle/Repack:** Eight Soldiers - 26 Hours
- **Fabric:** PVC Coated Fabric Membrane
- **Color:** Desert Tan, Olive Drab, Camouflage
- **Transported Within Three Bare Base Shipping/Storage Containers**
- **Includes Electrical and Lighting**

**Small Shelter System**

- **Type of Shelter:** Frame supported
- **NSNs:** Green 5419-01-465-3024EJ, Tan 5419-01-465-3025EJ
- **Purpose/Use:** Billeting, general purpose
- **Environment:** Worldwide
- **Dimensions:** 20 × 32.5 ft.
- **Floor Area:** 650 sq. ft.
- **Weight:** 1250 lbs. basic shelter system (includes shelter, membrane floor, liner, electrical, container)
- **Cube:** 119 cu. ft. for container (includes basic shelter system plus Mobility Readiness Spare Package)
- **Erection:** Four men less than one hour
- **Dismantle/repack:** Four men less than 45 minutes
- **Fabric:** 13.5 oz. PVC coated polyester
- **Color:** Camouflage Green or Desert Tan
- **Transported in indivudal composite container, 4 to a 463L pallet**
- **Includes 3.5-ton Environmental Control Unit, 611 lbs., 42 cu. ft. (airlifted separately, 12 to a 463L pallet)**

**Medium Shelter System**

- **Type of Shelter:** Frame Supported
- **NSNs:** Tan 4519-01-465-3019EJ, Green 4519-01-465-3023EJ
- **Purpose/Use:** General Purpose, (Communication, Supply, Flight line and Vehicle Maintenance)
- **Environment:** Worldwide (-60° to 125°)
- **Dimensions:** 52 × 29.5 ft
- **Floor Area:** 1500 sq. ft.
- **Weight:** 3,940 lbs
- **Cube:** 224 cu. ft. packed container
- **Erection:** 6 people 4 hrs
- **Fabric:** 13.5 oz. PVC coated polyester
- **Color:** Desert tan or camouflage green
**Army Tent, General Purpose, Small**

- **NSN:** 8340-00-470-2335
- **Type of Shelter:** Pole Supported
- **Purpose/Use:** Command Post, Battalion Aid Station, Fire Direction Center, or General Purpose
- **Dimensions:** 8'-9"L × 17'-6"W × 5' to 10'-6"H (Eave to Peak)
- **Floor Area:** 200 sq. ft.
- **Weight:** 186 lbs.
- **Cube:** 8 cu. ft.
- **Erection:** Four Soldiers - 30 Minutes
- **Fabric:** 13.5 oz. (Max) Polyester Duck
- **Color:** Desert Tan 459, Camo Green 483
- **LIN:** V49126

**Army Tent, General Purpose, Medium**

- **NSNs:** Green 8340-00-482-3963, Tan 8340-01-329-7478
- **Type of Shelter:** Pole Supported
- **Purpose/Use:** Personnel Housing, Command Post, Fire Direction Center, Mess Tents
- **Dimensions:** 32'L × 16'W × 5'-6" to 10'H (Eave to Peak)
- **Floor Area:** 512 sq. ft.
- **Weight:** 530 lbs.
- **Cube:** 33 cu. ft.
- **Erection:** Four Soldiers - 40 Minutes
- **Fabric:** 13.5 oz. (Max) Polyester Duck
- **Color:** Camo Green 483, Desert Tan 459
- **LIN:** V48989

**Army Tent, General Purpose, Large**

- **NSNs:** Green 8340-00-470-2342, Tan 8340-01-329-7479
- **Type of Shelter:** Pole Supported
- **Purpose/Use:** Hospital Ward, Billeting, Storage
- **Dimensions:** 52'L × 18'W × 5'-6" to 12'H (Eave to Peak)
- **Floor Area:** 936 sq. ft.
- **Weight:** 666 lbs.
- **Cube:** 69 cu. ft.
- **Erection:** Six Soldiers - 75 Minutes
- **Fabric:** 13.5 oz. (Max) Polyester Duck
- **Color:** Camo Green 483, Desert Tan 459
- **LIN:** V48578
Modular General Purpose Tent System (MGPTS)

- **Type of Shelter:** Currently Pole Supported
- **NSNs:**
  1) NSN 8340-01-456-3633 Small
  2) NSN 8340-01-456-3628 Medium
  3) NSN 8340-01-456-3674 Large
- **Purpose/Use:** Billeting and Field Services
- **Dimensions:** 18’L × 18’W × 7’H to 11’3”H (Eave to Peak)
  - Length can be extended in 18 ft. increments by adding intermediate modules
- **Floor Area:** 648 sq. ft.
  (MGPTS equivalent to GP Medium)
- **Fabric:** 13.5 oz. (Max) Polyester Duck (Tensioned System)
- **Color:** Desert Tan 459, Camo Green 483
- **P3I for Dual Support (Frame) System**

Lightweight Extreme Weather Shelter (LEWS), 3-Man

- **Type of Shelter:** Frame Supported
- **NSN:** 8340-02-429-5932
- **Purpose/Use:** Back packable Tent Satisfies Special Operations Forces (SOF) Requirement for use in Extreme Weather Conditions
- **Environment:** Arctic, Desert, Mountain Regions
- **Dimensions:** 45”H
- **Floor Area:** 45 sq. ft. min (10 sq. ft. min Vestibule)
- **Weight:** 12 lbs.
- **Cube:** 1.1 cu. ft.
- **Erection:** Two Soldiers - Five Minutes
- **Color:** Desert Tan, Arctic White, Woodland Green
- **Camouflage Capability**
**Soft Wall Shelters**

**Type of Shelter:** Frame Supported

**NSNs:** 32 NSNs; 16 TEMPER Types (I thru XVI) in either Color (ex. Type IV, Personnel, Green NSN 8340-01-196-6272, Type IV, Tan NSN 8340-01-185-2628).

**Purpose/Use:** Field Feeding, Medical Facilities, Billeting

**Environment:** All Climates

**Dimensions:** 8’L × 20'-6"W × 6'-9"H to 10’H (One Section) (Eave to Peak)

- Length Can Be Extended in 8 ft. Increments.
- **Floor Area:** 640 sq. ft. (Type IV, Personnel) (Four Sections)
- **Weight:** 1328 lbs. (Type IV)
- **Cube:** 123 cu. ft. (Type IV)
- **Erection:** Five Soldiers - 40 Minutes (Type IV)
- **Fabric:** 13.5 oz. (Max) Polyester Duck
- **Color:** Camo Green 483, Desert Tan 459
- **Features:** Tent Fly to Reduce Solar Loading, Fluorescent Lights, Electrical Power Distribution, Air Distribution Plenums for Heating/Cooling, Entrance Vestibule, Insulated Floor Capability Available

---

**Tent, Frame-Type, Expandable, 16 Ft × 16 Ft**

- **Type of Shelter:** Frame Supported
- **NSN:** 8340-00-782-3232
- **Purpose/Use:** Division Tactical Operations Center, Briefings
- **Dimensions:** 16’L × 16’W × 6’H to 8’-6"H (Eave to Peak)
- **Floor Area:** 256 sq. ft.
- **Weight:** 400 lbs.
- **Cube:** 60 cu. ft.
- **Erection:** Four Soldiers - 45 Minutes
- **Fabric:** 13.5 oz. (Max) Polyester Duck
- **Color:** Desert Tan 459, Camo Green 483

---

**Modular Command Post System (MCPS)**

- **Type of Shelter:** Frame Supported
- **NSNs:** Green NSN 8340-01-323-2454, Tan 8340-01-334-7529
- **Purpose/Use:** Command Posts in All Climates
- **Dimensions:** 11’L × 11’W × 7’H to 9’H (Eave to Peak)
- **Floor Area:** 121 sq. ft.
- **Weight:** 482 lbs. (Complete Tent System)
- **Cube:** 30 cu. ft.
- **Erection:** Two Soldiers - 20 Minutes
- **Fabric:** 13.5 oz. Polyester Duck
- **Color:** Camo Green 483, Desert Tan 459
- **Features:** Includes Two Field Tables, Four Mapboards, Two Fluorescent Lights, Removable Walls for Complexing to Other MCPS, Rain Gutters.
**Tent, Arctic, 10-Man**

- **Type of Shelter:** Pole Supported
- **NSN:** 8340-00-262-3685
- **Purpose/Use:** Provide shelter for ten soldiers and their equipment in Arctic weather conditions
- **Dimensions:** 8'-9"L × 3'H to 8'-6"H (Eave to Peak)
- **Floor Area:** 200 sq. ft.
- **Weight:** 76 lbs.
- **Cube:** 7.3 cu. ft.
- **Erection:** Six soldiers - 27 minutes
- **Fabric:** Cotton
- **Color:** Olive Drab
- **LIN:** V51729

**Tent, Hexagonal, Lightweight, M-1950 (5-Man Arctic)**

- **Type of Shelter:** Pole Supported
- **NSN:** 8340-00-269-1372
- **Purpose/Use:** Provide shelter for five men and their equipment in extremely cold, or cold-wet conditions
- **Dimensions:** 6'-7"L × 2'H to 8'-6"H (Eave to Peak)
- **Floor Area:** 113.2 sq. ft.
- **Weight:** 56 lbs.
- **Cube:** 3.8 cu. ft.
- **Erection:** Five soldiers - 15 minutes
- **Fabric:** Cotton
- **Color:** Olive Drab
- **LIN:** V49674

**Tent, Frame-Type, Insulated, Sectional, 16 Ft × 16 Ft**

- **Type of Shelter:** Frame Supported
- **NSN:** 8340-00-262-2399
- **Purpose/Use:** General purpose use in extreme cold climates
- **Dimensions:** 16'L × 16'W × 6'H to 8'H (Eave to Peak)
- **Floor Area:** 256 sq. ft.
- **Weight:** 2252 lbs.
- **Cube:** 250 cu. ft.
- **Erection:** Six soldiers - 45 minutes
- **Fabric:** Vinyl coated cotton duck (1" thick fiberglass batting)
**SOFT WALL SHELTERS**

**ARMY**

**Soldier Crew Tent**

- **Type of Shelter:** Frame Supported
- **NSNs:** Type I NSN 8340-01-359-0084, Type II NSN 8340-01-359-1481
- **Purpose/Use:** Quickly Erectable Tent for Combat Vehicle Crews
- **Dimensions:** 10'-10"L × 10'-10"W × 59"H
- **Floor Area:** 120 sq. ft.
- **Weight:** 75 lbs.
- **Cube:** 6 cu. ft.
- **Erection:** Two Soldiers - Five Minutes
- **Fabric:** 8.25 oz. Cotton Duck
- **SCT Types:** Type I (Green/Tan), Type II (Green/White)

**Tent, Shelter Half**

- **Type of Shelter:** Pole Supported
- **NSN:** 8340-00-753-6435
- **Purpose/Use:** Provide One Soldier Shade, Shelter Joined Together with Another Shelter Half for Two Soldiers
- **Dimensions:** 7’L × 5’-4”W × 3’-7”H (Two Halves)
- **Floor Area:** 30 sq. ft. (Two Shelter Halves)
- **Weight:** 5 lbs.
- **Cube:** 0.4 cu. ft.
- **Erection:** Two Soldiers - Five Minutes
- **Fabric:** 8.25 oz. Cotton Duck
- **LIN:** T00150
- **Six Halves Can Be Joined to Shelter Six Soldiers**
**Soft Wall Shelters**

**MARINE CORPS**

*Tent, Command Post, M-1945*

- **Type of Shelter:** Pole Supported
- **NSN:** 8340-00-269-1370
- **Purpose/Use:** Battalion Command Post, Battalion Aid Station
- **Dimensions:** 20'-7"L × 10'W × 6'H to 9'H (Eave to Peak)
- **Floor Area:** 172 sq. ft. (48 sq. ft. Vestibule Space)
- **Weight:** 235 lbs.
- **Cube:** 9.9 cu. ft.
- **Erection:** Five Soldiers - 20 Minutes
- **Fabric:** 13.5 oz. (Max) Polyester Duck
- **Color:** Desert Tan 459, Camo Green 483
- **LIN:** V49143

**Extreme Cold Weather Shelter (ECWS), 4-Man**

- **Type of Shelter:** Frame Supported
- **NSN:** 8340-01-406-9299
- **Purpose/Use:** Back Packable Tent Satisfies Marine Corps Requirement for Use in Arctic and Temperate Weather Conditions
- **Environment:** Arctic and Temperate Regions
- **Dimensions:** 60"H
- **Floor Area:** 60 sq. ft. min (60 sq ft min Vestibule)
- **Weight:** 18 lbs.
- **Cube:** 1.6 cu. ft.
- **Erection:** Two Soldiers - Five Minutes
- **Color:** Arctic White, Woodland Camo Green

**2-Man Combat Tent**

- **Type of Shelter:** Frame Supported
- **NSN:** 8340-01-452-5191
- **Purpose/Use:** Back Packable Tent Satisfies Marine Corps Requirement for Use in Desert and Temperate Conditions
- **Dimensions:** 34"H
- **Floor Area:** 39 sq. ft. min (10 sq. ft. Vestibule)
- **Weight:** 7 lbs.
- **Cube:** 0.5 cu. ft.
- **Erection:** Two Soldiers - Five Minutes
- **Color:** Desert Tan, Camouflage Green
- **Replacement to Shelter Half Tent**
**Special Purpose Shelters**

**Army**

**Ammunition Solar Cover, General Purpose, Type I**

- **Type of Shelter:** Pole Supported
- **Purpose/Use:** Provide General Purpose Solar Protection for Food Stocks, Supplies, Munitions, Vehicles and Equipment
- **Environment:** Hot Climates
- **Dimensions:** 35’L × 35’W × 7’ to 10’H
- **Floor Area:** 1225 sq. ft.
- **Erection:** Two Soldiers - 30 Minutes
- **Construct of Lightweight, Open Weave Mesh Material**
- **Reduces Solar Effects by 50-60%**
- **HMMWV Drive Through Capability**
- **Color:** Woodland Green, Desert Tan

**Ammunition Solar Cover, Type II**

- **Type of Shelter:** Pole Supported
- **Purpose/Use:** Provide Solar Protection for Munitions, Vehicles and Equipment
- **Environment:** Hot Climates
- **Dimensions:** 50’L × 50’W × 10’ to 14’H
- **Floor Area:** 2500 sq. ft. (Per Module)
- **Erection:** Two Soldiers - One Hour (Per 2500 sq. ft. Module)
- **Fabric:** Lightweight, Open Weave Material
- **Complexible**
- **Modular Design for Varying Ground Cover**
- **Reduces Solar Effects by 50-60%, Improves Reliability of Munitions**
- **Vehicle Drive Through Capability**
- **Color:** Woodland Green, Desert Tan
ARMY

Two Soldier, Small Unit Solar Shade (SUSS) — Experimental

- Type of Shelter: Supported by adjustable poles
- Purpose/Use: Reconnaissance Team / SOF, used for Hide Sites, protects exposed soldiers from high solar loading and reduces visual, thermal and infrared signatures
- Environment: Hot Desert/Woodland
- Breaks down into two bundles approximately 7 lbs. each
- System: Cover, poles, stakes, hammer and transport bags
- Set Up: Five minutes by one soldier
- Size: 7' W × 14' L × 20''H
- Composite open mesh solar shade fabric with Lightweight camouflage cover
- Tested and endorsed by 3rd Special Forces Group

COLT Team Small Unit Solar Shade (SUSS) - Four Soldiers — Experimental

- Type of Shelter: Supported by adjustable poles
- Purpose/Use: Reconnaissance and Combat Observation Lazing Teams (COLTs), used for forward observer and targeting sites, protects exposed soldiers from high solar loading and reduces visual, thermal and infrared signatures
- Environment: Hot Desert/Woodland
- Breaks down into three bundles approximately 12 lbs. each
- System: Two interlocking covers, poles, stakes, hammer and transport bags
- Set Up: Five minutes by three soldiers
- Size: 13'W × 12'L × 30''-50''H
- Composite open mesh solar shade fabric with Lightweight camouflage cover
- Tested and endorsed by COLT teams from the 1st ID and 1st AD (Fort Riley)
Maintenance Shelters

**ARMY**

**Tent, Frame-Type, Maintenance Medium, Light Metal (Fritsche)**

- **Type of Shelter:** Frame Supported
- **NSN:** 8340-00-951-6419
- **Purpose/Use:** Medium Sized Maintenance Shelter for Repair of Tracked and Wheeled Vehicles
- **Dimensions:** 32'L × 20'W × 14'H
- **Floor Area:** 640 sq. ft.
- **Weight:** 3371 lbs.
- **Cube:** 289.6 cu. ft.
- **Erection:** Four Soldiers - Five Hours
- **Fabric:** 9.85 oz. Cotton Duck (Olive Drab)
- **Cold Weather Insulated Liner Available** (Cotton Sateen/Fiberglass Batting)
- **LIN:** V48441

**Lightweight Maintenance Enclosure (LME)**

- **Type of Shelter:** Frame Supported
- **NSN:** 5410-01-456-3637
- **Purpose/Use:** Lightweight, Mobile Repair Shelter for Tracked & Wheeled Vehicles Across the Battlefield Under All Climatic Conditions
- **Dimensions:** 32'L × 25'W × 13.75'H to 16.5'H (Eave to Peak)
- **Floor Area:** 800 sq. ft.
- **Weight:** 1332 lbs. (1659 lbs Packed)
- **Cube:** 109 cu. ft.
- **Erection:** Six Man-Hours
- **Replacement to Standard Maintenance Tent**
- **Provides Blackout Capability**
Maintenance Shelters

Large Area Maintenance Shelter

- **Type of Shelter:** Frame Supported
- **NSNs:**
  - Clamshell Buildings Inc. - NSN 5410-01-334-3158
  - Canvas Specialties Inc. - NSN 5410-01-333-9299
- **Purpose/Use:** Large Area Maintenance/Repair Shelter for Helicopters, Tanks, and Wheeled Vehicles
- **Dimensions:**
  - Clamshell Buildings Inc. - 190'L × 75'W × 31'H (Length is Modular in 12.5-ft. Increments),
  - Canvas Specialties Inc. - 122'L × 65'W × 31'H (Length is Modular in 15-ft. Increments)
- **Floor Area:** Clamshell - 12,500 sq. ft.,
  - Canvas Specialties - 6700 sq. ft.
- **Shelter Weight:** Clamshell - 26,700 lbs.,
  - Canvas Specialties - 19,000 lbs.
- **Shipping Weight:** Clamshell - 30,000 lbs.,
  - Canvas Specialties - 25,400 lbs.
- **Cube:** Clamshell - 797 cu. ft.,
  - Canvas Specialties - 750 cu. ft.
- **Erection:** Clamshell - 12 People, 36 Hours,
  - Canvas Specialties - Eight People, 36 Hours
- **Procured During Operation Desert Shield/Storm**
Hybrid Shelters

**AIR FORCE**

**General Purpose Shelter (Bare Base)**

- **Type of Shelter:** Hybrid (Rigid and Soft)
- **NSN:** 5410-00-365-5017
- **Dimensions:** Deployed - 46’L × 30’W × 12’H, Transport Mode - 9’-9.75”L × 8’W × 8’H
- **Floor Area:** 1400 sq. ft.
- **Weight:** 10,897 lbs.
- **Erection:** 120 Man-hours (No Special Equipment Required)
- **Construction:** Rigid Honeycomb Wall Panels Connected to I-Beams to Form Arches
- Includes Electrical and Lighting
- Transportable by Truck, Forklift, 463L Cargo Handling System, or Towed Trailer

---

**ARMY**

**Chemically and Biologically Protected Shelter (CBPS)**

- **Type of Shelter:** Hybrid - Rigid Wall and Pressurized Airbeam Supported
- **NSN:** 5410-01-441-8054
- **Purpose/Use:** Provide Contamination Free, Environmentally Controlled Work Area for a Battalion Aid Station (BAS) and Division Clearing Station (DCS)
- **Dimensions (Tent):** 18’-10”L × 18’-8”W × 10’H
- **Floor Area (Air Supported Tent):** 300 sq. ft.
- **Erection:** Four Soldiers - 20 Minutes
- Includes Insulating Liner
- 44,000 BTU/hr Cooling, 60,000 BTU/hr Heating
- **Consists:** LMS Mounted on Heavy HMMWV, Airbeam Supported Soft Shelter, and High Mobility Trailer with 10kW Tactical Quiet Generator.
- Transports Four-Person Medical Crew with Gear and All Medical Equipment
- Direct Replacement for M51 Chemically Protected Shelter
JOINT COMMITTEE ON TACTICAL SHELTERS
(JOCOTAS)
CHARTER
19 April 2000

1. Purpose
JOCOTAS is a DOD wide committee that brings together many organizations and individuals involved in soft wall, rigid wall and hybrid military tactical shelters. The purpose is to:
   a. Advance the state of the art in shelter design and shelter ancillary equipment
   b. Search for common solutions to identified user needs
   c. Eliminate duplication of shelter RDT&E
   d. Create a standard shelter family and maximize its use within DOD
   e. Share information and expertise to solve shelter problems
   f. Work to promote evolutionary change in processes used for shelter development
   g. Assist the services in procuring shelters in the most streamlined and cost effective way
   h. Assure shelters are compatible with commercial & military transportation equipment for worldwide deployment
   i. Provide forum for interaction between JOCOTAS and industry.

2. Background
Under the joint regulation AR 70-59/AFJI 61-108/OPNAVINST 3900.27/MCO 3920.5A, entitled “Department of Defense Tactical Shelter Program”, JOCOTAS was formed in 1975 for the purpose of eliminating duplication of RDT&E among services, and to establish and maximize usage of a standard family of tactical rigid wall shelters. Since its inception, JOCOTAS has reduced the number of rigid wall shelter types from approximately 250 to 17. Soft shelters were added to JOCOTAS in 1994. This Charter augments the Joint Regulation.

3. Exclusions
Structures that are not considered tactical shelters and are thus not covered by this charter are as follows:
   a. Containers used exclusively for cargo transportation.
   b. Refrigerated structures.
   c. Modular or prefabricated permanent structures designed to be shipped to the operating location, and assembled with external unit support.
   d. Truck and Trailer Vans.

4. Membership
   a. Chairman – JOCOTAS Chairperson (referred to as Chair) shall be from OUSD (AT&L).
   b. Executive Secretary – The Chair shall name an executive secretary that will arrange for the annual meeting, prepare the agenda, and complete and distribute the minutes.
   c. Technical Working Group (TWG) Chairs – There will be two TWGs; Soft Wall Shelters, and Rigid Wall Shelters. The Executive Secretary shall name a TWG Chair for each TWG. The TWG Chairs will arrange the TWG meetings, prepare the agendas, and complete and distribute the minutes.
   d. Service/Agency Representatives – Each service or agency, to include Army, Air Force, Marines, Navy, and DLA Headquarters, shall select a single person that has the authority to vote for that service/agency.
e. General Participation – JOCOTAS invites any Government personnel involved with, or interested in, shelters to attend meetings, to include:
   - Shelter technology and engineering developers
   - Shelter integrators and engineering support activities
   - Shelter procurement agencies
   - Combat developers and requirements agencies
Occasionally, Non-Government personnel may be invited to participate in these meetings.

5. Meetings
   a. Joint Technical Working Groups (TWGs) – Generally two joint Rigid/Soft Wall TWGs will be held annually to share information, develop program and standardization strategies, and resolve disputes. Usually held in October and April.
   b. JOCOTAS Annual Meeting – Usually held in April with the Chair to review results of the TWGs, highlights of shelter activities over the preceding year, and the Executive Secretary to review each service/agency’s 5-year RDT&E and production program.

6. JOCOTAS Responsibilities/Objectives
   Since 1975 JOCOTAS has saved millions of dollars through the elimination of duplication in R&D, multi-service buys of shelters, and in reduced logistics supportability costs. Specific responsibilities/objectives under this charter are:
   a. Coordinate multi-service plans for shelter RDT&E, modernization and production programs.
   b. Maximize opportunities for joint requirements, joint development programs, and joint funding.
   c. Promote cost-effective, streamlined shelter acquisition and procurement.
   d. Maximize opportunities for joint procurement and central logistics support.
   e. Maintain the DOD standard family of soft wall, rigid wall, and hybrid shelters, and add to the family to meet multi-service requirements.
   f. Maximize the use of standard shelters within DOD; require a waiver to buy non-standard shelters.
   g. Prepare and update annually a 5-year multi-service RDT&E and production plan.
   h. Sponsor/assist the Defense Ammunition Center & School in the extensive review and revision of MIL-HDBK-138 to include re-inspection criteria for ISO Shelters and changes to the Convention for Safe Containers (CSC) Training Course on Re-Inspection of ISO Shipping Containers to include ISO Shelters.
   i. Publish periodic updates to the JOCOTAS Standard Family of Tactical Shelters Brochure; as changes occur, immediately update the website that contains the Brochure.
   j. Promote development and use of engineering standards and design criteria for multi-service shelters, both rigid and soft wall. An example is ASTM E-1925 “Engineering and Design Criteria for Rigid Wall Relocatable Structures”.

7. Committee Procedures
   a. Service/agency position – Each service & DLA Headquarters representative to JOCOTAS is responsible for obtaining consensus within their service/agency on any issue.
   b. Resolving issues - Each service & DLA Headquarters shall have one voting member. A majority vote shall be sufficient to resolve most issues, unless a majority of the voting members determines that the issue is of such significance that it needs to be brought to the attention of the Chair. When a consensus (majority) cannot be obtained, or the issue is of major significance, then a special meeting shall be held with the Chair. The Executive Secretary will prepare a white paper prior to the meeting describing the issues with a brief synopsis describing the positions of each of the voting groups. Each side
shall then have the opportunity to present their position to the Chair. The Chair will make the decision.

8. Waiver Procedures

a. A waiver is required from CUSD (AT&L) to procure, in production, a soft or rigid wall shelter other than one that is listed in the JOCOTAS Standard Family of Tactical Shelters Brochure. Note: With respect to waiver requests for soft wall shelters only, this procedure applies if the unit cost of the shelter exceeds $25,000.

b. Prior to submitting a waiver request, requester must contact their service JOCOTAS member to discuss their situation and verify the need to submit a waiver request. Requester then should prepare the waiver request and submit to the aforementioned JOCOTAS member.

c. JOCOTAS member will coordinate waiver request with other service JOCOTAS members and obtain a written position from each.

d. If the majority of members agree, the waiver request will be forwarded, by the Executive Secretary, to the JOCOTAS Chair. The Chair will issue a memorandum granting or denying the waiver request.

e. When a consensus (majority) cannot be obtained, or the waiver is of major significance, the JOCOTAS Chair will call a meeting to resolve. If a consensus(majority) position cannot be reached at this meeting, the JOCOTAS Chair will make the final decision, and issue a memorandum stating the waiver decision.

f. Non-standard shelter waiver request format:

1) Name of using system, development agency, address, responsible individual and phone number.

2) Quantity of non-standard shelters and delivery schedule.

3) State reasons why a standard shelter cannot be used by addressing the following:

(a) What is the rationale? Be specific.
(b) What capabilities are not provided by a standard shelter?
(c) Why a standard shelter cannot be modified or upgraded?
(d) What requirements prevent the use of standard shelters, what is the basis and rationale of these requirements, and what, if any, effort has been made to change/modify these requirements to allow use of standard shelters?
(e) Why integrating components or layout cannot be changed so a standard shelter can be used?

Andrus Vilu, Deputy Director, Land Warfare
Office of the Under Secretary of Defense
(Acquisition, Technology and Logistics)
Chairman:
Andrus Villu, Deputy Director Land Warfare, Office of the Under Secretary of Defense (Acquisition, Technology and Logistics), Tel: 703-695-9284; DSN 225-9284; Fax: 703-693-7029

Chairman’s Action Officer:
Chuck Sieber, Office of the Under Secretary of Defense (Acquisition, Technology and Logistics), Tel: 703-697-7645; DSN 227-7645; Fax: 703-693-7029

Executive Secretary:
Jack M. Siegel, Director, Collective Protection Directorate, U. S. Army Soldier Systems Center - Natick, Tel: 508-233-4209; DSN 256-4209; Fax: 508-233-4433

JOCOTAS Rigid Wall Shelter Technical Working Group (TWG) Chairman:
David A. Mikelson, Senior Mechanical Engineer, Shelters Customer Engineering Team, Collective Protection Directorate, U. S. Army Soldier Systems Center - Natick, Tel: 508-233-5243; DSN 256-5243; Fax: 508-233-4433

JOCOTAS Soft Wall Shelter Technical Working Group (TWG) Chairman:
Frank Kostka, Team Leader, 21st Century Fabric Structures Team, Collective Protection Directorate, U. S. Army Soldier Systems Center - Natick, Tel: 508-233-5257; DSN 256-5257; Fax: 508-233-5112

Air Force Principal Voting Member:
Terry Holland, Shelter Product Group Manager, Hill AFB, Tel: 801-777-2860; DSN 777-2860; Fax: 801-586-2149

Army Principal Voting Member:
Colonel Cecil R. Webster, Director, Support Systems Division, Assistant Secretary of the Army (Acquisition, Logistics and Technology), Tel: 703-604-7270; DSN 664-7270; Fax: 703-604-8290

Army Principal Voting Member’s Action Officer:
Major Robert H. Welsh, DA Systems Coordinator (Soldier Modernization), Tel: 703-604-7274; DSN 664-7274; Fax: 703-604-8290

Defense Logistics Agency (DLA) Principal Voting Member:
Stephen Sadler, Program Manager, Clothing & Textiles, DLA Headquarters, Tel: 703-767-2505; DSN 427-2505; Fax: 703-767-2513

Marine Corps Principal Voting Member:
Bill Iddings, Team Leader, DECON, Shelters and Collective Protection, PM CSLE Marine/NBC, Marine Corps System Command, Tel: 703-784-5897; Ext. 43043; DSN 278-5897, Ext 43043; Fax: 703-784-5899

Navy Principal Voting Member:
Captain A.G. Moore, Mobile Facility Product Support Team Leader, Naval Air Systems Command, Tel: 301-757-9149; DSN 757-9149; Fax: 301-757-5096
